

## Insurance Policy Information

Our office will obtain general benefit information from your insurance to get an idea of what your benefits **may be**, but **we do not guarantee any benefits from your insurance company**. When insurance companies quote benefits, they state: "Verification of benefits is not a guarantee of payment. Benefits will be determined at the time claims are processed."

It is understood and agreed that I shall pay the full amount of the charges should my condition be such that it is not covered by my insurance policy or if for any reason the insurance company fails to pay my claim or processes my claim differently than expected.

**Please sign your name below, indicating that you have read, understand, and agree to all of the above.**
